- **Tools & Concepts:** Git, GitHub, VS Code, ServiceNow, OOPS

EXPERIENCE

Cloud Computing Intern — HashTek Solutions

- AWS

- Worked with AWS cloud services including EC2, S3, IAM, and gaining practical exposure to cloud resource management and deployment workflows.
- Supported hands-on cloud infrastructure activities and built foundational knowledge of DevOps practices and real-time resource management.

PROJECTS

GovAssist AI — AI-Powered Government Scheme Navigator

- Agentic AI, LLMs, RAG, QSVM

- Developed an AI-powered platform that helps citizens discover relevant Central and State Government welfare schemes using profile-based eligibility information.
- Integrated Agentic AI and RAG-based retrieval for context-aware scheme discovery, personalized eligibility guidance, and multilingual conversational assistance.
- Designed document analysis and step-by-step application guidance to simplify access to government welfare benefits.

Intelligent Complaint Management Platform

- MongoDB, Express.js, React.js, Node.js

- Built and deployed a full-stack complaint management platform supporting complaint submission, real-time tracking, CRUD operations, and RESTful API integration.
- Implemented database connectivity with MongoDB and responsive, user-facing workflows for managing complaints end-to-end.

Personal Portfolio Website

- Deployed on Vercel

- Designed and deployed a professional portfolio website to present technical skills, projects, certifications, and achievements in a recruiter-friendly format.
